Governor: Mark Gordon

Dear WORx Uploader,

Summary: WORx the WY Prescription Drug Monitoring Program, will be changing software systems on 6/29/2022. We will be moving to the Bamboo Health PMP AWARxE software.

How It Affects Me: You don't have to do anything at this time.

Action Steps:

1. **Beginning on 5/30/2022, all uploaders that are currently submitting data to <https://worxpdp.com/> will be required to register with the Bamboo Health PMP Clearinghouse.** If you are currently registered with the Bamboo Health PMP Clearinghouse system as a Data Submitter for another state, you will not need to register for a new account. You will be able to add WY to your existing account for data submissions.
2. **You will receive additional information on or around 5/30/2022 with instructions on how to register and/or request approval to submit data to WY's new software.**
3. **Effective 6/29/2022 you must begin reporting to the new system.** The last day you will be able to send data to existing software is **6/28/2022**.

Thank you for your assistance in making this a smooth transition, and for your help in making the WY PDMP successful.

Best regards,

A handwritten signature in blue ink, appearing to read "M. Martineau".

Matthew R. Martineau, PharmD, RPh
Executive Director
